We discussed priority budgeting and what we really mean. It was felt that we needed the full committee, especially Pat, to carry further the concept. Once we have it better defined we need to spend time with Bill Griffin and the Selectmen to sign on to the concept. Sam will talk with Pat to get moving.

We discussed the placement of Zoning articles on the warrant. The Town needs a better way of dealing with this. There is a zoning article review sub committee in place, but it does very little. Citizens petitions with amendments on floor are usually voted down due to confusion and lack of time to fully vet.

We briefly mentioned continuing the bench mark discussion.
