

**TOWN OF COHASSET
PUBLIC MEETING AND WORKSHOP
FLOOD CONTROL MASTER PLAN**

Notice is hereby given that two Public Meetings and Workshops will be held to discuss specific sections of the Town most susceptible to stormwater flooding problems. The Town's Consulting Engineer will present preliminary finding and recommendations and detail the future challenges relative to Flood Control. After that presentation, a public participation workshop will take place to gather additional citizen input and opinions. Workshop results will be assessed and incorporated into a Draft Flood Control Master Plan which will be later presented at a Public Meeting. All residents are welcome and encouraged to attend. The scheduled meetings are as follows:

**James Brook and Jacob's Meadow Workshop - Thursday, May 22, 2008
at 6:30 PM in the Town Hall Auditorium**

**Atlantic Avenue and Treat's Pond Workshop – Monday, June 16, 2008
at 6:30 PM in the Town Hall Auditorium**

BOARD OF SELECTMEN
