To all Cohasset Sewer Customers

RE: Sewer Rate Increase Effective FY 2006

On August 1, 2005, the Sewer Commission unanimously voted to increase the sewer rate from \$6.70 per 100 cubic feet to \$7.70. The average household will see an increase of \$108.00 per year. This represents a 15% increase over the FY 2005 rates.

The Sewer Commission has raised rates to offset our rising costs. We operate as an Enterprise Fund and work independently from the Town Budget. In order to keep up with depreciation, maintenance, operation of the plant, etc., the commission felt that a rate increase was necessary. This is the first increase in over 2 years.

If you have any questions please call the Sewer Commission at 781 383 4116.

Sincerely,

Cohasset Sewer Commission
